**Subject:** [External] Please Oppose the Atlantic Coast Pipeline

**CAUTION:** External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Good Morning,

I recently heard an advertisement from the EnergySure Coalition asking people to speak out in favor of the pipeline, which only made me aware of how much they are willing to spend in order to sway public opinion so they can pursue a project that will risk water quality and ignore the environmental impact on several states in order to make more money. This project is unnecessary; the benefits of their claim for reliable energy isn't worth the risk and North Carolina should continue to promote and support renewable options for energy.

I would like to thank you for choosing to delay the decision in September, but now I ask that you make a final decision to reject the Atlantic Coast Pipeline.

Please help North Carolina stand for a clean future.

Thank you,

Kelly Hetrick
